DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 7/25/2003 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tedesco, R., "Buying air time online," Broadcasting & Cable, 28 February 2000 and in view of ordinary business practice

Tedesco suggests several information presentation systems which inserts presented data of a data presentation client (see page to para 6)

An information presentation system which inserts presented data of a data presentation client into provided data which a service provider provides, and presents the presented data, the information presentation system comprising:

data presenting condition transmitting means for transmitting data presenting conditions by the data presentation client (see full article);

Application/Control Number: 10/626,637

Art Unit: 3693

data presenting condition acquiring means for acquiring data presenting conditions from

the data presentation client in a prior period which is before a providing period of the provided

data by the service provider starts (see full article);

data presenting condition determining means for determining data presenting conditions

Page 3

on the basis of a reference which is set in advance from the data presenting conditions acquired

from the data presenting condition acquiring means, after the prior period passes (see full

article);

notifying means for reporting notification data corresponding to the data presenting

conditions determined by the data presenting condition determining means (programming posted

online, see para., 7); and

providing means for providing the presented data by inserting the presented data into the

provided data on the basis of the notification data from the notifying means (programming

posted online, see para., 7).

Tedesco fails to disclose data presenting conditions corresponding to maximum price

among bid price. However, since Tedesco talks about interactive bidding online, it would be

obvious from auctioning practices that there would be an upper and lower price boundary. Thus

to provide data presenting conditions corresponding to a maximum price would be within the

realm of what someone of ordinary skill at the time of the invention would expect. Thus such a

modification would be an obvious expedient to one of ordinary skill in the art.

Conclusion

Art Unit: 3693

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Daniel S. Felten whose telephone number is (571) 272-6742.

The examiner can normally be reached on Flex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, James Kramer can be reached on (571) 272-6783. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
